**Object Oriented Programming in Java Lab**  
CSCI 212 Lab-12B (48960)  
Fall 2017  
Instructor: Krishna Mahavadi (kmahavadi@qc.cuny.edu)

**Grade Distribution:**
- Homework: 10 points
- Quizzes: 10 points
- Project1: 10 points
- Project2: 10 points
- Project3: 10 points

**Instructor:**  
Krishna Mahavadi  
kmahavadi@qc.cuny.edu  
office: SB A201  
office hours:  
Monday, Wednesday 10:00am – 10:30am  
Tuesday, Thursday 6:00pm – 6:30pm  
or by appointment.

**Course Website:**  
http://venus.cs.qc.edu/~krishna/cs212/

**Classes:**  
Monday and Wednesday.  
9:00 am – 9:50 am, SB A135B

**Exam dates:**  
Midterm: Monday, 10-30-2017 (8am to 8:50am, in the lecture class)  
Final: Monday, 12-18-2017 (8:30 am to 10:30 am)

**Lab Attendance Policy:**  
Lab attendance is highly recommended for your own benefit.  
Those who come to lab and practice writing code do learn better and score better in exams than those who do not attend the lab.

**Quiz Policy:**  
There will be a quiz once every three weeks.  
You must attend the lab to take a quiz.  
**There will be no make up quizzes.**  
However, the lowest 2 quiz scores will be dropped.
Homework Policy:

Homework should be submitted on time and only once. Late Submission means a 10% reduction in score. A week after the deadline, homework will not be accepted. Only java files with a .java extension should be submitted. Any .zip, .rar, or .jar files will not be unpacked or graded. If you write a program in the Eclipse, you should compile and run it using javac and java in a terminal or on venus to make sure that it works as you expect it. Remove any package statement for Eclipse created files before testing and submission. It is important that you develop a systematic approach to coding, testing and debugging. The homeworks are assignments must be done individually. You can discuss problems with friends, but your code can’t be a copy of another student’s work. If I find two homeworks identical, both will receive a score of 0 the first time along with a warning. If this is repeated, more severe action will be taken. Tutors are available if you need help. However, try to challenge yourselves to succeed on your own.

Project Submission policy

Email the project using your college email. Test it thoroughly before submitting it. You may submit a homework or project only once. Details about submission will be given along with the project.

Academic dishonesty such as plagiarism or cheating will be dealt with seriously in accord with the University’s policy on academic integrity.
