Calculate Fibonacci(10)

```cpp
#include<iostream>
using namespace std;

int main() {
    int n = 10;
    int small = 0;
    int large = 1;
    int fib;
    for(int i = 2; i <= 10; i++) {
        fib = small + large;
        small = large;
        large = fib;
    }
    cout << fib;
    return 0;
}
```
