Homework assignment #4: ‘For loop’
Deadline: Thursday, March 12 before 23.59pm EST
Follow the guidance, otherwise 15% penalty will be applied.

Specification:
Write a complete C++ program using ‘for loop’ that prints the following pattern as shown below (it should be exactly alike, there are no empty lines between lines of output, each next line is an increment of 2 up to the middle and after that is a decrement of 2).
