

## Learning Objectives:

1. Run the tar command to extract lab08.tar in venus
2. Understand why programmers use [pseudocode](#) to make a plan on what to code.
3. Practice how to answer 2 of the most common question types in mid-term and final exams.
  - a. Provide C++ statements to carry out **specific** tasks
    - i. mt1\_fa17\_q2.cpp
    - ii. mt1\_sp18\_q2.cpp
  - b. Trace through a program and figure out the console outputs
    - i. mt1\_fa17\_q3.cpp
    - ii. mt1\_sp18\_q3.cpp
4. Go over EC2.
5. Finish up our self-introduction 😊
